When someone visits the App, our App automatically gathers information that allows the App to communicate with the visitor's phone or other mobile device during the visit. We also track such information as the number of visits to the App, which parts of the App visitors select, analytics to measure and observe user behavior, device type, device identifiers, Wi-Fi networking connection data, information about connected Wi-Fi devices, the types and versions of mobile operating systems you use and usage statistics associated with the App, such as your search history (including letters you key in for searches, search results, and content you select and view), browser type (e.g., Firefox, Chrome or Internet Explorer), date and time of day and device screen size. We use such information only for statistical purposes that help us design and administer the App.

Privacy concerns focus on Personal Information, that is, information that could identify a specific individual such as names, addresses, e-mail addresses, product purchase information, credit card and other payment data and demographic data and telephone numbers. If during your use of the App, you personalize the App, complete an order form, enter a contest, provide survey feedback or submit other information to us, you may provide us with Personal Information. If you do not wish us to use the geolocation information for such purposes, you can decline our request to read the geolocation; in that case, some of the services of our App may not be delivered. We may provide the geolocation information to third parties who assist us in the provision of the services and communications to you through the App.

As explained below in the section on Dissemination of Information to Third Parties, we do not distribute or sell Personal Information to third parties for the purpose of allowing them to market their products and services to you; moreover, as explained in the Opt Out/Modify Information section, we will make a reasonable effort to remove your Personal Information from our database in such a way that you will not receive future communications from us, if that is your wish. If you notify us that Personal Information previously submitted to our App is no longer accurate, we will make a reasonable effort to make appropriate corrections. To facilitate our efforts to meet your request, it would be helpful if you could let us know the context in which you provided Personal Information, e.g. in connection with promotion of a specific product or service.
